

# Safe Jack

## WHEEL CHOCKS INSTRUCTION MANUAL

PART NO. 14410

ESSENTIAL FOR WHEN YOU NEED TO  
JACK UP A VEHICLE/TRAILER

Unpack the Wheel Chocks and ensure that all parts are included:

- 4 x Yellow Wheel Chocks
- 4 x 3ft Chain

If you are missing any parts please call (03) 9761 1110 immediately.

## USING THE WHEEL CHOCKS

Each tyre will need two wheel chocks. Place a wheel chock in front of and behind a wheel. Secure using chain as shown. Do the same with the wheel adjacent to the first wheel.

The warnings, precautions, and instructions discussed in this manual cannot cover all possible conditions and situations that may occur. The operator must understand that common sense and caution are factors, which cannot be built into this product, but must be supplied by the operator.

 **WARNING:** Do not allow anyone in or near the vehicle while using the jack. Sudden movement and weight shift can result in instability. Keep all personnel a safe distance away from the vehicle.

 **WARNING:** Do not attempt to lift the vehicle on a side or longitudinal slope. The vehicle can slide or roll causing severe injury or death.

 **WARNING:** Before lifting, place the vehicle's transmission in 'PARK' for automatic transmissions and Low Gear (1st gear) for manual transmissions. Set the vehicle's emergency brake. Block the wheel diagonal to the wheel that is being lifted with wheel chocks. Failure to follow these instructions can result in severe injury or death to personnel.
