6 TONNE HYDRAULIC BOTTLE JACK

CONFORMS TO AUSTRALIAN STANDARD AS2693:2007

Heat-treated extension screw allows low pick-up height adjustment and maximum lift height

A built-in patented by-pass device protects hydraulic system from over pumping damage

In-line pump allows for easy jack positioning under load

A wide, rugged base provides stability and strength

Unique cross-type forged release valve assures positive control

PART No. 14600
