LIQUITUBE™

The Original Liquid Inner Tube™

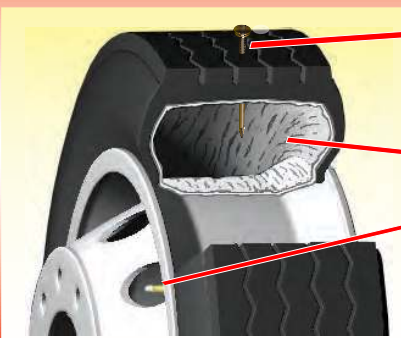

PREMIUM TYRE SEALANT

Prevents & Repairs Flat Tyres!

- Permanent Seal for the Life of the Tyre
- Seals Punctures, Rim & Bead Leaks
- Works in Any Tyre
- Helps Maintain Tyre Pressure & Reduce Tyre Temperature
- Extends Life of Tyre
- Water Soluble
- Patented Formula

Here's how LiquiTube Works

- Seals punctures up to 6mm in standard tyres. Up to 20mm in heavy ply tyres.
- Installs easily through the valve stem once the valve core is removed.

Stays Effective for the Life of the Tyre!

- Coats all inner surfaces of tyre & rim to prevent all forms of air loss including rim, bead, & porosity leaks.

COATS EVENLY WHILE DRIVING, SEALS ALL INTERIOR SURFACES

EASY TO USE

Ready to use with no mixing or special preparation needed. And since there is no need to completely deflate heavy ply tyres, it only takes a few minutes to install in large vehicles with our hand injector pump.

NO MESS

Completely water soluble for easy clean out of a tyre if recapping or patching of a large puncture is required.

WON'T HARM TYRE OR WHEEL

Sealing action is completely mechanical - there is no chemical reaction that might harm the tyre or cause corrosion on the wheel.

WILL NOT SEPARATE

Will remain effective for the life of the tyre.

STAYS IN PLACE

Will not migrate to the bottom of the tyre when the vehicle is stopped. Protection is permanent!

EFFE CTIVE IN COLD WEATHER

Remains fluid and effective in temperatures down to -42° C.

SAFE TO USE

Contains no asbestos fibres. As a safety precaution, eye protection is recommended when injecting into high pressure industrial or commercial tyres.

EFFE CTIVENESS

Extremely effective in tubeless tyres, less effective in tube type tyres.

May not work with some low tyre pressure equalisers or indicator systems.

LIQUITUBE PREMIUM TYRE SEALANT:

- Keeps tyres properly inflated
- Extends tyre life
- Increases fuel economy of vehicles
- Lasts for the life of the tyre
- Makes a permanent repair
- Reduces equipment downtime
- Eliminates tyre repair costs
- Reduces lost man hours
- Keeps tyres up to 35° cooler
- Reduces blow-outs
- Extends tyre casing life
- Reduces thrown re-treads
- Effective from -45°F to over 200°F
- Coats evenly, aids heavy truck tyre balance
- Content never separates, no mixing required
- Indefinite shelf life
- 100% Water soluble for easy clean out
- Meets EPA standards for municipal disposal
- Non flammable, non hazardous
- Will not rust, corrode, or pit wheels
- Does not void tyre manufacturer warranties
- Works in tube type tyres
- More effective in tubeless tyres

HOW MUCH TO BUY (per tyre)

Cars, Vans	14"	250ml
	15"	300ml
	16"	330ml
4WD's, Light Trucks	15"	330ml
	16"	350ml
	17"	390ml
Most Motorcycles	Front	300ml
	Rear	350ml
Golf Carts	All	600ml
Ride On Mowers	Front	480ml
	Rear	700ml

NOTE: General Guide. Exact quantities are included in instructions on packaging.
