If you are missing any parts please call 03 9761 1110 immediately and reference missing parts

The warnings, precautions, and instructions discussed in this manual cannot cover all possible conditions and situations that may occur. The operator must understand that common sense and caution are factors, which cannot be built into this product, but must be supplied by the operator.

WARNING: Do not allow anyone in or near the vehicle while using the jack. Sudden movement and weight shift can result in instability. Keep all personnel a safe distance away from the vehicle.

WARNING: Do not attempt to lift the vehicle on a side or longitudinal slope. The vehicle can slide or roll causing severe injury or death.

WARNING: Before lifting, place the vehicle's transmission in "PARK" for automatic transmissions and Low gear (1st gear) for manual transmissions. Set the vehicle's emergency brake. Then, block the wheel diagonal to the wheel that is being lifted, with wheel chocks. Failure to follow this instruction can result in severe injury or death to personnel.

1. Unfold Wheel Chocks and insert locking tab into slot to lock into triangle.
2. Before lifting, place the vehicle's transmission in "PARK" for automatic transmissions and Low gear (1st gear) for manual transmissions. Set the vehicle's emergency brake.
3. Block the wheel diagonal to the wheel that is being lifted with wheel chocks. Failure to follow this instruction can result in severe injury or death to personnel.
